

Case Study: Distribution

PRESTIGE MAINTENANCE USA RESPONDS TO URGENT COVID-19 DISINFECTING NEED

An existing distribution client knew that Prestige Maintenance USA had the expertise, tools and team to handle their daily janitorial cleaning needs. When an urgent need arose, they quickly reached out to a trusted partner, and Prestige Maintenance USA delivered!

The Prestige team was already onsite daily at two different campus locations, cleaning office buildings for sales, fleet, QA, maintenance, plus guardhouses, entrances, patios, elevators, stairways, breakrooms, rest rooms, locker rooms, mail rooms, conference rooms and training rooms. Not only does Prestige Maintenance USA provide night-time in-depth cleaning with full crews, they also provide a day porter to handle trash and day-time cleaning.

Then the client was hit with a presumed COVID-19 case at an additional distribution location (this was early in the pandemic, before testing was available). The client knew exactly who to call – Prestige Maintenance USA! The Prestige Maintenance USA team quickly pulled together a plan for the client and was able to send a team that evening.

The first episode was to disinfect the entire office area including offices, cubes, rest rooms and all other employee areas. The second time an urgent need arose, the cleaning team was called to disinfect 8 trucks – cabs and trailers, including all the high touch surfaces, to keep the distribution center trucks rolling the next day. They made it happen.

What did the Prestige Maintenance USA team use? A specialized electrostatic sprayer, designed for cleaning large areas quickly, thoroughly and safely. The sprayer uses EPA-approved disinfectant which is safe to use in office settings, food service areas, and anywhere deep cleaning is needed. It is effective against COVID-19.

Customer satisfaction & employee engagement – both are key areas for success! At Prestige Maintenance USA we focus on these key areas. For more than 44 years, we have provided our customers with the highest quality results. We provide janitorial and facilities maintenance services using environmentally sustainable solutions. With more than 2,000 W-2 employees nationwide, we serve clients in many industries, including commercial, distribution, manufacturing and retail. We strive each day to deliver on our purpose: "Right People, Reliable Experience!".
